

Project Initialization and Planning Phase

Date	12 July 2026
Project Name	Plugging into the Future: An Exploration of Electricity Consumption Patterns
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A State Electricity Board Analyst.	Analyze electricity consumption trends across Indian states.	The available data is difficult to interpret and compare.	It is stored in multiple formats and lacks interactive visualizations.	Frustrated because it delays effective planning and decision-making.
PS-2	An Energy Policy Maker	Monitor regional electricity usage and evaluate the impact of COVID-19 lockdown.	Existing reports are static and provide limited insights.	They do not support interactive filtering or comparative analysis.	Uncertain while making energy policies and resource allocation decisions.
